LETTER OF RECOMMENDATION

To whomsoever this may concern

It takes immense pleasure in introducing one of my outstanding Students **Aafrikawala Kosarbanu Samirbhai** of M.Sc. Biotechnology at C G Bhakta Institute of Biotechnology. The interactions with her, especially in lectures and practical laboratories, provide me sufficient information to assess the intellectual capability and analytical skills that she developed during her course.

I find her to be hardworking, diligent and sincere in her efforts and feel that her practical and logical approach of handling the problems presented should be brought to your notice. In her, I find commitment and dedication of a good student. Her clarity of thoughts, combined with her good communication skills, brings out the intellectual independence in her.

Dedicated, disciplined and driven are the three words that summarize my impression of her personality. She has a natural curiosity, a keen sense of observation and desire to learn skills that are so incredibly important in research field. As a person, she is very helpful, jovial, energetic and supportive.

Kosarbanu is unquestionably a good candidate. I firmly believe that she will scale the highest peaks in her field of interest. In view of all above facts, I strongly recommend her without any hesitation.

Wishing her all success in her future endeavors.

Yours sincerely
